## REVIEW OF CONGRESS

What Has Been Accomplished by the First Session.

## IMPORTANT BILLS.

Exceptional Business Activity Has Been on for Seven Months and Measures of Far-reaching Interest Disposed of—Adjournment.

Washington, June 30.—The work of congress is now practically closed, so that it is possible to sum up the record of what has been accomplished during the past seven months, which constitute the first session of Fifty-seventh congress. The session has been marked by exceptional business activity with many questions of far-reaching general interest engaging attention. With the exception of the Cuban reciprocity bill most of the larger subjects of general legislation have been enacted as laws or will become such before the session closes. Notable among these larger measures is the isthmian canal bill, which consummates the efforts of a half century to link together the waters of the Atlantic and the Pacific. Aside from its national and international importance, this bill probably involves a larger sum of money than that covering any other single undertaking by the government outside of war expenditures. The Philippine civil government bill is another measure of far-reaching importance, extending to our remote Pacific possessions a system of international government, together with coinage, currency, banking, corporations, timber and homestead law.

Among the other important general laws enacted are those repealing the war revenue taxes; extending and making more effective the Chinese exclusion laws; establishing a tariff for goods to and from the Philippines; extending the charter of national banks for twenty years; establishing a permanent census office; restricting the sale of oleomargarine by placing a high tax on imitation butter; providing a consular and diplomatic service for Cuba and establishing an extensive system by which the government will aid in the irrigation of the arid sections of the west.

The repeal of the war revenue taxes reduced taxation \$75,250,000, and is said to be the largest single reduction of taxation ever made in this country. By this step the last of the taxes imposed at the beginning of our war with Spain was wiped out.

The Philippine tariff act imposes 75 per cent of the Dingley tariff rates on articles coming from the Philippines from the United States the rates of duties established by the Philippine commission.

The oleomargarine act results from several years of agitation. It places a tax of ten cents a pound on substances colored to imitate butter.

The irrigation act is of special importance to the development of the west. It creates an irrigation fund in the treasury department into which is to be paid the proceeds of the sale of public lands in the arid states. This fund in turn is to be used in storing water and establishing irrigation systems, the irrigation sections to be open to homesteaders, who are to be charged a proportionate share of the cost of the improvement.

The Chinese exclusion law continues exclusion "until otherwise provided by law" and also applies the exclusion to the island territory under the jurisdiction of the United States.

Aside from these important laws, there are a number of other measures of general importance which have passed one or both houses, but have not progressed to the final stage. These include the anti-anarchist legislation which grew out of the assassination of President McKinley. Bills restricting anarchy and throwing safeguards about the president have passed both branches of congress, but it has been possible to reach an agreement in conference, so that subject goes over.

A bill giving statehood to Arizona, New Mexico and Oklahoma, known as the omnibus statehood bill, passed the house and the senate has determined to take up the matter early in the next session.

The ship subsidy bill secured early attention in the senate but the end of the session has come without the measure being reported to the house. As it passed the senate the bill grants graded subsidies to steam and sailing vessels of American build. In the house it has been deemed desirable to let the subject go over until the short session, when it is expected that a bill on the subject will be reported and urged to passage.

The bill creating the Appalachian forest reserve, including a vast tract in the Appalachian mountains of the south, has received favorable attention in both houses, but has gone over for final adjustment of differences until next December.

Another bill passed by the senate and likely to become a law changes the marine hospital service to

national health bureau and gives the bureau larger powers and facilitates cooperation with the state health authorities in quarantine and health affairs.

The bill to establish a cable between the United States, Hawaii and the Philippines was retired by defeat in the house.

Several other measures have advanced to a certain stage and have then halted without much prospect for further advancement. These include the bill for the election of United States senators by direct vote of the people. It passed the house by practically a unanimous vote but in the senate has received little attention and is not likely to pass.

The house passed a bill relating to the immigration laws, codifying and amending these laws relating to important changes. It has been reported to the senate but there is not much prospect of its passage at this session.

The bill defining the meaning of conspiracy in injunction cases passed the house of representatives but has not made much progress in the senate.

The senate passed an important measure creating a department of commerce, to be presided over by a cabinet officer, but it has made no progress in the house, not having been reported from committee.

Another bill of interest to the commercial world is the pure food measure which was drafted by the pure food congress, and after extended hearings was reported from the house committee on commerce, but not passed.

The Fowler bill was probably the most important financial measure which has been brought before congress. After considerable public discussion and several conferences by the members of the house it has gone over for consideration until next December. Another financial measure, known as the Hill bill, providing for the coinage of subsidiary silver and for the retirement of the present standard silver dollar, has passed the house, but has not been acted on in the senate.

Among the other important measures of general legislation not heretofore named, which have been finally enacted as laws, are the following:

To prevent the sale of firearms, opium and intoxicating liquors to the natives of certain of the Pacific islands; to promote the efficiency of the revenue cutter service and to provide for the retirement of its officers; to refund the duties paid in Porto Rico on articles imported from the United States during the military occupation; appropriating \$200,000 for the relief of the volcano sufferers at Martinique; authorizing the erection of Y. M. C. A. buildings on United States military reservations; regulating the introduction of English game birds for the purpose of propagation; providing for the protection of game in Alaska; extending an invitation to the French government to participate in the unveiling in Washington of the statue of Marshall de Rochambeau; refunding the amount of legacy tax paid by charitable, benevolent and eleemosynary institutions.

The amount of appropriations for the session will run unusually high, owing in part to the amount required to build the isthmian canal. When Mr. Cannon submitted a general estimate of appropriations a few weeks ago, he made the total up to that time \$691,445,000. Since then the canal bill has passed, carrying a present appropriation of \$40,000,000 for the franchise and enough more for the rights of Colombia and for beginning the work, to carry the total up to \$50,000,000. The entire cost of the undertaking is approximately \$184,000,000. Mr. Cannon's estimate also omitted contracts for future expenditures, including the omnibus public buildings and various other bills, aggregating a large amount. This will carry the total for the session, figuring in these future accounts, almost, if not quite, up to the billion-dollar mark.

END OF CONGRESS.

It Is Believed Adjournment Will Come by Wednesday.

Washington, June 30.—The exact time when the present session of congress shall come to a close cannot be foretold until there is definite information as to when an agreement will be reached on the Philippine civil government bill. However, the general consensus of opinion places the adjournment not later than Wednesday.

Of the appropriation bills only the general deficiency and naval bills remain to receive the finishing touches. There are still some points of difference on each of these measures between the two houses, but none that cannot be harmonized whenever the Philippine bill shall be out of the way. Neither house will attempt much other business.

The senate calendar contains a number of measures which can be discussed, and there is an understanding in the house that the militia bill shall be used as a basis for discussion to fill in the time when conference reports are not at hand for consideration.

There also is an understanding that the London dock charge bill shall be taken up under a suspension of the rules after the adoption of the resolution fixing the hour for adjournment.

Both houses will close the session with exceptionally clean calendars.

Washington, June 30.—It is understood that the resolution for the adjournment of congress has been drawn

in authoritative quarters and fix 3

tomorrow for final adjournment.

It has not been introduced, but is

now in the hands of the committee on

adjournment.

WOODSON-TABOR.

Baptist Church Scene of Another Beau-  
tiful Wedding.

Mr. Charles H. Woodson and Miss Emily Tabor were united in marriage at the First Baptist church at 3:30 o'clock yesterday afternoon by the pastor, Dr. W. C. Friley. The church was filled to the doors with friends of the contracting parties. The decorations, arranged under the supervision of Mrs. W. S. Howell, were of palms, smilax, ferns, moss and roses, tastefully disposed about the altar.

Miss Howell presided at the organ and, before the arrival of the wedding party, little Misses Norris and George Tabor sang "You and I," with great sweetness. A beautiful feature of the ceremony was the singing of the Lohengrin Wedding Chorus by twenty little misses who were pupils of the bride in the public school. These were Misses Fannie Fountain, Alberta Adams, Norris and George Tabor, Lucile DeMaret, Ida Wipprecht, Mary Evans, Aline Rohde, Jessie Lomax, Mary McInnis, Melvina Tabor, Lula Tabor, Minnie Barrow, Marcella Hurt, Willie McDougal, Irene Board, Jessie Mawhinney, Rowena Rhodes, Helen Peverly.

Miss Adele Tabor, sister of the bride, was maid of honor, and Mr. L. L. Stevens best man. The other attendants were Miss Aubra Tabor and Mr. George Smith. Messrs. F. C. Oliver and J. F. Ettle were the ushers. The ring was borne upon a dainty pillow by little Miss Helen DeMaret. The party, including the minister, entered with the singing of the wedding chorus, and on reaching the altar the little misses who carried rose chains formed a semi-circle in the rear of the altar, the bride and groom faced the minister and the other attendants stood on either side, making a strikingly effective group.

The words of the ceremony were clear and impressive and the invi-

cation fervent. Mendelsohn's wedding march was the recessional. The choir of little misses preceded the bride and groom and formed on either side the walk leading from the vestibule to the carriages in waiting. The wedding party was driven immediately to the depot and left for Galveston to spend a fortnight.

The bride's dress was of linen silk tissue over white taffeta, with opal silk trimmings. The bride is a daughter of Mr. and Mrs. R. G. Tabor and was raised in Bryan. She is intellectual and accomplished, and has been a teacher in the public schools, in the regular work of the school, and in the art department, and she was not only successful in instructing her pupils but also won their confidence and lasting regard. She is also beloved by a large circle of friends who wish for her the most perfect happiness.

The groom, Mr. Woodson, came to Bryan from Missouri several years ago and has been employed continuously in the dry goods house of Wagner & Brandon, where he is in charge of the dress goods department. He is a thorough gentleman in every sense of the word and has won a high place in the esteem of the people of Bryan.

Upon their return, Mr. and Mrs. Woodson will be at home at the residence of Mr. and Mrs. H. E. Peverly.

The University of Texas catalogue is a volume of 342 pages, full of information concerning the work and equipment of the State's great educational enterprise. With a system starting with the primary grades and extending through the intermediate, grammar, and high schools, with the University at the crowning step, Texas has an educational edifice in line with the best thought of the times and of which any state might feel proud. The generous endowment provided for the system, if supplemented by appropriations from the general revenue, will ultimately put Texas to the forefront in educational affairs. Keep the boys and girls at a home school where they will not be educated out of harmony with the spirit and traditions of their fathers. A catalogue may be had by addressing Registrar Lomax Austin, Texas.

The state encampment will be held at Austin July 22 to 30. Bryan will be well represented by the Third regiment band and Company G, Fourth Texas Volunteer Guard.

The men met later in the street and blows were exchanged. The quarrel was renewed at a second meeting when Ravo had a double barrelled shot gun in his hand and Carris his revolver. ### A RECORD BREAKER.

Automobiles Run from Paris to Vienna in Fifteen Hours.

Vienna, June 30.—The Paris-Vienna automobile race covered the distance from Paris to Vienna in 15 hours and 22 minutes, at an average speed of 82 kilometers (about 51 miles) an hour. Three of the contestants claim to have won.

Renault passed the winning point precisely at 2 o'clock, but he was disqualified for failure to stop at the control station at Florisdorf, a suburb of Vienna, across the Danube, where the final racing time was to be taken. Instead he dashed madly through the crowd of officials and timekeepers and entered Vienna at full speed, scattering vehicles and pedestrians in all directions and arriving at the Prater in 18 minutes instead of the prescribed minimum of 45 minutes from Florisdorf.

Zborowski, although he arrived at 2 o'clock, is believed to be too heavily handicapped by his previous performance to win first place. It is expected that Maurice Farman will attain the coveted honor, his brother Henry coming second.
